DC-60C-Term-In Description

The DC-Digital DC-60C-Term-In is designed to be used where a highly visible counter is needed. The flexibility of this unique design gives it a broad range of applications in industry, government, schools and churches. It allows for hardwired controls from PLC's , switches, relays and or sensors that can provide a mechanical contact closure or a PNP sourced electronic switch action. It can be used in either existing buildings or new construction. Long viewing distances are accomplished with its large red LED display. The all aluminum, black extra tough powder coated enclosure gives it a professional look that will hold up in many harsh environments.
