DC-Digital DC-259T-DDD-HH-MM-SS Description

The DC-Digital DC-259T-DN-DDD-HH-MM-SS is designed to motivate people and inform them of a long term deadline. The project countdown timer can be used in any application where a day counter is needed. The counter is battery backed up to allow for time retainage during power failure. Mounting hardware is included to accommodate any wall mount or table top application. Use the project countdown timer to motivate customers to act on limited time offers. Use the project countdown timer to inform interested parties of an event or project milestone.
