

2.3" (4) Time Zone 4 Digit Digital Clock DC-25TZ4

DC-DigitalTM
by IES Ltd.

Features

- Red Super Bright LEDs
- Visible up to 100 Feet
- 12 or 24 Hour Time Format
- Made in the USA
- 1-year warranty
- 120-240VAC Operation
- Master-Slave Configuration
- Rechargeable Battery Backup
- Set to any Time Zone
- Desktop or Surface Mount
- Mounting Hardware Included
- All Aluminum Case

Specifications

- **Display** (4) 4-digit; seven segment; red LED displays
- **Case** Extruded Aluminum; 41"W x 7.25"H x 3.125"D
- **Weight** 16 pounds
- **Power Source** 120VAC at 600mA, 240VAC at 300mA
- **Operating Temp.** 0° to 49° Celsius (32° to 120° Fahrenheit)
- **Accuracy** +/- 2 seconds per 30 days
- **Case Finish** Exterior Grade Powder Coat (Tuxedo Black)

DC-Digital DC-25TZ4 Description

The DC-Digital DC-25TZ4 is designed to be used in any application where a multiple time zone digital clock is needed. Each time zones' minute and second is controlled by a designated master time zone (half hour time zones can be accomadated). This unique design allows full flexibilty of each time zones hours settings. The DC-25TZ4 is battery backed up to allow for time retainage during power failure. Mounting hardware is included to accomodate any wall mount or desktop mount application.
