

RF Wireless 2 Function Handheld Controller Transmitter

[WRC-2T-S](#)

DC-Digital
tm

Features

- Made in the USA
- ABS black textured enclosure
- Fits in the palm of your hand
- Belt clip
- 9 volt battery, 1 year life (typical)
- 2- Membrane pushbutton switches (1 million operations min.)
- Water resistant (cleanable)
- RF Wireless controls (150' range), 65,000 addresses
- Wire whip internal antenna (not exposed)
- Factory serviceable

Options

- Alternate addresses (multiple controllers can be used in the same vicinity)
- Customizable operations and label
- Hardwired
- Tone per push

Specifications

- **Case** All ABS plastic enclosure, 4.1" x 2.6" x 1.5"
- **Weight** <1 Pounds
- **Power Source** 9 volt alkaline battery
- **Operating Temp** 0° to 49° Celsius (32° to 120° Fahrenheit)
- **Case Finish** Black textured
- **Radio** 802.15.4, 2.4Ghz, 1mW, DSSS (Direct Sequence Spread Spectrum)

[WRC-2T-S](#) Description

The DC-Digital [WRC-2T-S](#) is designed to be used where a RF wireless controller is needed. It is made of a durable ABS plastic and has a cleanable membrane switch panel. The flexibility of this unique design gives it a broad range of applications in schools, industry, governmental and churches. The RF (**R**adio **F**requency) wireless controllability gives the user easy access and total freedom to all of its functions without sacrificing limited control, as found in our competitors IR (Infrared Led) remotes (IR remotes also have limited range of transmission 50 feet or less and is limited to indoor operation only).
