DC-10UT Description

The DC-Digital DC-10UT is designed to be used where a universal count up, countdown, timer and time of day clock is needed. The DC-10UT utilizes the shift digit technology that allows the user to see hours as well as hundredths of a second. The flexibility of this unique design gives it a broad range of applications in schools, industry, governmental and churches. The tope mounted controls gives the user flexible and instant control at any time. It can be used in either existing buildings or new construction. Long viewing distances are accomplished with its large red LED display. The all aluminum, black extra tuff powder coated enclosure gives it a professional look that will hold up in many harsh environments.

Specification Sheet
