- **Case**   Aluminum, 48"W x 18.5"H x 3.25"D
- **Weight**   35.0 Pounds
- **Power Source**   120-250 VAC, 50-60 Hz,@ 3 amps, outdoor rated junction box.
- **Operating Temp**   0° to 49° Celsius (32° to 120° Fahrenheit)
- **Case Finish**   Black Powder Coating

DC-150T-DN-W-IN Description

The DC-Digital DC-150T-DN-W-IN is designed to be used where a wireless countdown timer is needed. The DC-150T-DN-W-IN utilizes the **shift digit technology** that allows the user to see hours as well as hundredths of a second. The flexibility of this unique design gives it a broad range of applications in schools, industry, governmental and churches. The RF (**R**adio **F**requency) wireless controllability gives the user easy access and total freedom to all of its functions without sacrificing limited control, as found in our competitors IR (Infrared Led) remotes (IR remotes have limited range of transmission 50 feet or less and is limited to indoor operation only). It can be used in either existing buildings or new construction. Long viewing distances are accomplished with its large red LED display. The all aluminum, black extra tuff powder coated enclosure gives it a professional look that will hold up in many harsh environments. This unit includes one wireless remote control (WRC-6T). Additional wireless controllers are available for purchase.
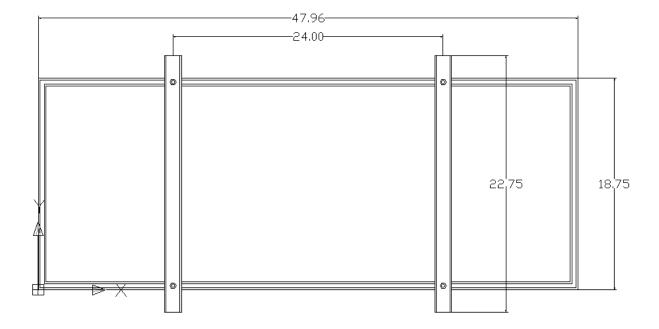

[DC-150T-DN-W-IN](#) Mounting and Dimensions

There are (2) aluminum .125 inch x 1.5 inch x .75 inch C channel mounting rails that can be used as mounting brackets and secured to a wall or they can be removed and the (4) 5/16 x 1 inch bolts can be used.
