

DC-Digital/Industrial Electronic Service Capability Statement

Company

DC-Digital/Industrial Electronic Service (IES) is an Ohio-based engineering, manufacturing and distribution company founded in 1967 as a one-person audio-visual and electronics repair firm.

In 1996 DC-Digital/IES became a major U.S. manufacturer of high-quality engineered digital clocks, timers, counters, custom displays, and a distributor, installer and servicer of scoreboards and messages boards. DC-Digital/IES routinely customizes and designs products for military bases, hospitals, educational institutions, places of worship and manufacturing facilities.

Company Principals

Pete Staffan, Owner, President of Sales, has more than 30 years with DC-Digital/IES, beginning as a technician.

Jim Staffan, Owner, Veteran, CFO, has more than 30 years with DC-Digital/IES, Director of Engineering and Manufacturing, has secured patents for the firm using his electronics expertise, and is responsible for custom electronics design solutions.

Key Products

DC-Digital/IES manufactures and distributes industrial- engineered clocks, timers, counters, and displays. DC-Digital/IES is a seasoned distributor, installer and service provider of Sportable, Daktronics, Fair-Play, and Nevco scoreboards and message centers.

In addition, DC-Digital/IES offers Adaptive Micro Systems AMS indoor and outdoor electronic message centers.
