[DC-406-BB](#) Description

The DC-Digital DC-406-BB rough in back box is designed to be used in any application where a flush mounted 4.0 inch 6 digit display is to be required. The DC-406-BB will mount directly into any substrate that can support the shown dimensions. Its cavity has ample room for making up multiple cabling connections. This unique design can be used in either existing buildings or new construction. This equipment is proudly made in the USA.

DC-406-BB mounting and Dimensions

Mounts into a standard wall opening. There are (6) 10-24 threaded machine screw holes for attaching the flush mount front (sold separately).
