- **Case Finish** Finger Print Resistant, Tough, Black Textured Powder Coating

[DC-25T-UP-Plug-N-Play](#) Description

The DC-Digital [DC-25T-UP-Plug-N-Play](#) is designed to be used where a highly visible count up timer is needed. The [DC-25T-UP-Plug-N-Play](#) utilizes the **shift digit technology** that allows the user to see hours as well as hundredths of a second. The flexibility of this unique design gives it a broad range of applications in industry, government, schools and churches. The Plug-N-Play hardwired remote control switches make it ideal for those customers who just want to plug the timer in and use without any mounting or running of cabling. It can be used in either existing buildings or new construction. Long viewing distances are accomplished with its large red LED display. The all aluminum, black extra tough powder coated enclosure gives it a professional look that will hold up in many harsh environments.

[DC-25T-UP-Plug-N-Play](#) Mounting and Dimensions

There are (6) keyhole mounting knockouts for easy attachment to an electrical handy-box or an electrical 4 square box or simply several screws secured to the wall. Also supplied are 4 adhesive backed rubber feet that can be adhered to the enclosure bottom for table or desk top mounting.
