DC-406N-POE-FLUSH-STAINLESS Description

The DC-Digital DC-406N-POE-FLUSH-STAINLESS time of day clock is designed to be used in any application where any 6-digit, LED Network NTP Atomic time of day clock needs to be seen. It automatically queries NTP once every minute and on power up. It can be set up for 12- or 24-hour time format (default is 12 hour). It can be set up for static IP or DHCP (default is DHCP) and to receive the NTP from your server (default is NIST). This unique design can be used in either existing buildings or new construction. This time-of-day clock can be mounted flush directly or with a rough in back box. This equipment is proudly made in the USA. This display is factory serviceable.
