DC-256ALN-Date-Time-POE-Stainless Description

The DC-Digital DC-256ALN-Date-Time-POE-Stainless Atomic, network, date & time of day clock is designed to be used in any application where a 2.3 Inch red LED alphanumeric 7-digit date and 6-digit time of day clock (HH:MM:SS) with IP66 rated, gasketed, 316L surface mount enclosure (intended for regular disinfection and cleaning) is needed to be seen. It automatically queries NTP once every 1 minute (user selectable) and on power up. It can be set up for 12- or 24-hour time format (default is 12 Hour). It can be set up for static IP (default DHCP) to receive the NTP from your server (default is NIST). This unique design can be used in either existing buildings or new construction. The DC-256ALN-Date-Time-POE-Stainless date & time of day clock comes with all stainless flush mount enclosure with a gasket and polycarbonate lens, and 12 mounting points. This equipment is proudly made in the USA. This display is factory serviceable.
