Description

The DC-25T-UP-ROCK-PKG is designed to be used where a highly visible count up Rock Climbing Wall timer is needed. The DC-25T-UP-ROCK-PKG utilizes [shift digit technology](#) that allows the user to see hours as well as hundredths of a second. The flexibility of this unique design gives it ideal usage as a Rock-Climbing Wall timer. The Internal terminal blocks allow for hardwired remote controls from (2) included 40mm palm switches. It can be used in either portable or permanent mounted walls. Long viewing distances are accomplished with its large red super bright LED display. The all-aluminum, black extra tough powder coated enclosure gives it a professional look that will hold up in many harsh environments. USA made and factory serviceable.

DC-25T-UP-ROCK-PKG Mounting and Dimensions

There are (6) keyhole mounting knockouts for easy attachment to an electrical handy-box or an electrical 4 square box or simply several screws secured to the wall. Also supplied are 4 adhesive backed rubber feet that can be adhered to the enclosure bottom for table or desk top mounting.
